INDEX TO VOLUME XXXVI

Page numbers preceded by "(P)" refer to the summaries of symposia and papers at the Meetings of the Thoracic Society or other bodies. "(E)" refers to editorials.

A

ABRAMS LD. *See* MATTHEWS ET, ABRAMS LD
Accidents, road, cardiac damage presenting late after, 811
ADAMS IP. *See* WILKINSON GAL, ADAMS IP, *et al*
ADDINGTON WW, BANNER AS, CARRINGTON CB, EMORY WB, KITTLE CF, LEONARD G: Lymphangiomyomatosis and benign metastasising leiomyoma: a clinical spectrum responsive to oophorectomy (P), 707
ADDISON GM. *See* CHOPRA MP, ADDISON GM, *et al*
ADELMANN-GRILL BC. *See* BATEMAN ED, TURNER-WARWICK M, *et al*
Adenocarcinoma of bronchus (P), 708
  renal, endobronchial metastasis from, simulating foreign body, 183
Adenoma of bronchial mucous gland, 147
ADESANYA CO. *See* MABOGUNJE OA, ADESANYA CO, *et al*
Adrenergic responses in asthma with nocturnal wheezing, circadian variation in (P), 713
β-Adrenoreceptor blocking factor, circulating, in asthma (P), 712
Adriamycin and 5-fluorouracil, radiotherapy in bronchogenic carcinoma with, comparison with radiotherapy alone, 190
Aerosol β_2 agonist (fenoterol), bronchodilator response to, effect of inspiratory flow rate (P), 714
  fenoterol and oral fenoterol, effect on histamine and methacholine challenge in asthma, 580
  salbutamol versus oral slow release aminophylline in treatment of nocturnal asthma (P), 715
Aerosols, corticosteroid, in severe chronic asthma, trials of (E), 401
  pressurised, deposition in respiratory tract, 52
Age, influence on response to ipratropium and salbutamol in asthma, 523
AGNEW JE. *See* BATEMAN JRM, AGNEW JE, *et al*
—. *See* FAIRFAX AJ, HASLAM PL, *et al*
—. *See* SHEAHAN NF, PAVIA D, *et al*
AGUSTI-VIDAL A. *See* RODRIGUEZ-ROISIN R, PARES A, *et al*
Airflow obstruction, chronic, and cryptogenic obliterative bronchiolitis in adults, 805
  obstruction, chronic, recovery of plasma corticotrophin and cortisol levels after 3-week course of prednisolone in, 22
  obstruction, chronic, response to prednisolone in, time course of, 18
  obstruction in chronic bronchitis, diurnal variation in, 618
  obstruction, mild, emphysema in, detection by lung pressure-volume curves and helium-sulphur hexafluoride washout, 29
  obstruction, severe, nebulised salbutamol in, acute lung deflation after (P), 227
  obstruction, sustained release oral aminophylline in, 303
  oscillation, forced, estimation of specific airway conductance from (P), 221
Airway calibre, rhythm in, implications for diagnosis and treatment of nocturnal asthma (E), 481
  conductance, specific, estimation from forced airflow oscillation (P), 221
  cooling, real cause of bronchoconstriction in asthma attributed to suggestion? (P), 712
  disease, obstructive, chronic, and hypoxia, hypothalamic-pituitary dysfunction in, 605
  disease, obstructive, serum and sputum α_2-macroglobulin in, 512
  narrowing, chronic, susceptibility of smokers to, atopy as factor in (P), 716
  obstruction, chronic, carbon dioxide stimulated breathing pattern in, 130
  obstruction, chronic, nocturnal hypoxia in (P), 224
  obstruction, chronic, secondary polycythaemia in, development of (E), 321
  obstruction, control of breathing and respiratory P_{CO_2} oscillations in (P), 708
  obstruction in myasthenia gravis (P), 710
  obstruction, tidal expiratory flow patterns in, 135
  resistance, lung volumes and flow-volume loops, measurement of, automated system for, 944
  response to inhaled prostaglandin E_2 in asthma, effect of chronic salbutamol treatment (P), 714
  responses, immediate, to cigar and cigarette smoke (P), 227
  responsiveness to histamine and methacholine, relationship to minimum treatment for control of asthma symptoms, 575
ALIGIZAKIS C. *See* XANTHAKIS DS, KATSARAS E, *et al*
ALLEN JD, *See* PARDEE NE, WINTERBAUER RH, *et al*
Allergic alveolitis, extrinsic, dust respirators in, protective value of, clinical assessment with inhalation provocation tests, 917
  alveolitis, extrinsic, in pigeon breeders, immune complexes in (P), 228
  aspergillosis of maxillary sinuses (P), 710
  bronchopulmonary aspergillosis causing lung collapse in non-asthmatic patients (P), 710
  bronchopulmonary disease due to *Curvularia lunata* and *Drechslera hawaiiensis*, 338
  bronchopulmonary disease due to fungi other than Aspergillus (*Letter*), 719
  bronchopulmonary fungal disease without clinical asthma, 345
  reactions and asthma in laboratory animal handlers, immunological differences between (P), 229
  reactions, mediators of, release by mast cells and basophils, and inflammatory disorders in lung (E), 721
Allergy in laboratory animal handlers (P), 228
ALLWORK SP, ANDERSON RH: Anatomy of the tetralogy of Fallot (P), 72
—. *See also* BENTALL HH, CLELAND WP, *et al*
Alveolar cell carcinoma and pulmonary interstitial fibrosis, simultaneous occurrence in one family, 252; (*Letter*), 560
  cells, response to injury (E), 801
  development after left pulmonary artery ligation in newborn pig, clinical relevance to unilateral pulmonary artery, 938
  macrophage function, enhancement by lymphokines (P), 717
  macrophage function, investigation with lucigenin-dependent chemiluminescence, 866

proteinosis, pulmonary, lung lavage with partial cardiopulmonary bypass in, 543
wall, mast cells in (P), 718
Alveolitis, allergic, extrinsic, dust respirators in, protective value of, clinical assessment with inhalation provocation tests, 917
allergic, extrinsic, in pigeon breeders, immune complexes in (P), 228
fibrosing, cryptogenic, lung volume, expiratory flow rates and lung transfer factor for carbon monoxide in, interrelationship between, 858
ALVINS E. *See* LITTLE G, ALVINS E, *et al*
AMER E, GUY J, VAZE B: Endobronchial metastasis from renal adenocarcinoma simulating a foreign body, 183
Aminophylline and salbutamol, intravenous, in asthma, failure to demonstrate synergy between, 741
oral, sustained release, in airflow obstruction, 303
salbutamol and terbutaline, intravenous, in asthma, comparison of efficacy of (P), 233
slow-release, and oral salbutamol, effect on exercise tolerance in chronic bronchitis, 787
slow release, oral, versus aerosol salbutamol in treatment of nocturnal asthma (P), 715
sustained release, effect in chronic asthma (P), 233
Amyloid, lung tumour producing, 395
Anaerobic bacterial flora of respiratory tract in non-infected patients (P), 707
Anaesthesia, general, for rigid bronchoscopy, safety of (P), 715
ANAGNOSTOPOULOS CE. *See* SANDERSON CJ, RICH S, *et al*
Anaphylaxis, slow reacting substance of, plasma levels in asthma (P), 714
ANDERSON EG. *See* MONIE RDH, SMITH AP, *et al*
ANDERSON G: Oral VP-16-213 in advanced bronchogenic carcinoma (*Letter*), 719
—, BOWYER F, WILLIAMS L: Oral VP-16-213 in advanced bronchogenic carcinoma and toxic effects when combined with methotrexate, 462
—, DEELEY TJ, SMITH C, JANI J: Comparison of radiotherapy alone and radiotherapy with chemotherapy using adriamycin and 5-fluorouracil in bronchogenic carcinoma, 190
ANDERSON HR, BAILEY P, PALMER J, WEST S: Community survey of the drug treatment of asthma and wheezing in children (P), 222
ANDERSON RH. *See* ALLWORK SP, ANDERSON RH
ANDERSON SD, BYE PTP, SCHOEFFEL RE, SEALE JP, TAYLOR KM, FERRIS L: Arterial plasma histamine levels at rest, and during and after exercise in patients with asthma: effects of terbutaline aerosol, 259
Aneurysm of ascending aorta, false, with aortico-right atrial fistula, 796
of superior vena cava, primary, congenital, coexisting with rheumatic mitral stenosis, 638
Angiograms, pulmonary artery morphometry in chronic obstructive lung disease from, 360
Angiotensin converting enzyme levels in bronchoalveolar lavage fluid in pulmonary sarcoidosis, comparison with serum ACE levels, 790
Angler's asthma (P), 712
Antibiotics, homograft valves for aortic valve replacement treated with, 7 years' experience with, 330
prophylactic, in oesophageal resection (P), 73
prophylaxis in cardiac surgery, critical appraisal of (P), 78
Antigen of *Haemophilus influenzae* in bronchial tissue, 665
Anti-smoking cigarette filters (MD-4), objective *in vivo* analysis of, 213
ANTONY VB, SAHN SA: Empyema after internal jugular catheterisation in rheumatoid arthritis, 958
ANYANWU CH, EGBUE M: Management of pleural sepsis in Nigerian children, 282
Aorta, ascending, aneurysm of, false, with aortico-right atrial fistula, 796
thoracic, arteriovenous fistula of, case presenting with superior vena caval obstruction, 315
Aortic and mitral valves, stenosis of, infective endocarditis from group C streptococci causing, 69
dissection, acute, clotted false lumen as indication for medical management in, reappraisal of, 194
homograft valves in second decade after implantation (P), 75
syndrome, middle, causing heart failure in children, presentation and management of, 63
valve replacement, antibiotic-treated homograft valves for, 7 years' experience with, 330
Aortocoronary bypass surgery, functional result of, assessment by exercise tests, 428
Aortopulmonary shunts in growing animals, evaluation of synthetic, biosynthetic and biological conduits for (P), 80
Apnoea during sleep and hypoventilation in transient nocturnal hypoxaemia of 'blue and bloated' bronchitis (P), 710
during sleep, syndrome of, due to neurofibromatosis and superior vena caval obstruction, 634
Argon laser, endoscopic, in treatment of bronchial carcinoma, techniques and results (P), 235
ARMISTEAD SH. *See* STANDERFER RJ, ARMISTEAD SH *et al*
ARMSTRONG JD, GLUCK EH, JONES HA, CRAPO RO, HUGHES JMB: Simultaneous measurement of lung volume and weight (P), 709
ARNOLD AG, GRIBBIN B, DE LEVAL M, MACARTNEY F, SLACK M: *Trichosporon capitatum* causing recurrent fungal endocarditis, 478
—, ZAPATA E, LANE DJ: Speed of onset of acute severe asthma (P), 223
—. *See also* STRADLING JR, HUDDART S, *et al*
Arterial oxygen tension, measurement in adults with transcutaneous electrode, 473
plasma histamine levels before, during and after exercise in asthma, effect of terbutaline aerosol, 259
Arteries, great, transposition of, congenitally corrected, with tricuspid incompetence, xenograft valve replacement in 15-month old child with, 217
Arteriovenous fistula of thoracic aorta, case presenting with superior vena caval obstruction, 315
Arteritis, giant cell, limited to large elastic pulmonary arteries, 876
Arthritis, rheumatoid, and chronic suppurative lung disease (P), 229
rheumatoid, empyema after internal jugular catheterisation in, 958
Asbestos exposure and public health (E), 241
exposure, intrapulmonary fibrosis due to, progression of (P), 232
insulation workers in Belfast, follow-up of (P), 232
pleural disease, non-malignant, 669
pleural effusion, benign, diagnosis and course of, 896
ASHRAF H. *See* MARKS P, FERRAG MZ, *et al*
ASHRAF MH, WALESBY RK, SHEPHERD MP, NOHL-OSER HC: Comparative study of rigid and fibreoptic bronchoscopy in the diagnosis of bronchial carcinoma (P), 76
ASHWORTH B. *See* GRANT IWB, MAWDSLEY C, *et al*
Asians, glandular tuberculosis in, lymph node biopsy supplementing clinical diagnosis in (P), 711
Aspergilloma, pulmonary, changing patterns of (P), 224
pulmonary, treatment of (P), 709
Aspergillosis, allergic, of maxillary sinuses (P), 710
bronchopulmonary, allergic, causing lung collapse in

non-asthmatic patients (P), 710
bronchopulmonary, allergic. *See also* Fungal disease, bronchopulmonary, allergic
Aspergillus infection, pulmonary, invading pleura, 745
Asthma, acute exacerbations of, severe, prediction of recovery from, 835
acute, severe, cardiovascular response to, and changes during treatment, 534
acute, severe, comparison of inhaled and intravenous terbutaline in, 629
acute, ipratropium bromide in (P), 225
acute, severe, prediction of rate of recovery from (P), 223
acute, severe, speed of onset of (P), 223
acute, severe, treatment without steroids (P), 223
airway response to inhaled prostaglandin E_2 in, effect of chronic salbutamol treatment (P), 714
and bronchitis, variation in peak expiratory flow rate in (*Letter*), 237
and gastro-oesophageal reflux, relationship between, 116
and other allergic reactions in laboratory animal handlers, immunological differences between (P), 229
and wheezing in children, drug treatment of, community survey of (P), 222
arterial plasma histamine levels before, during and after exercise in, effect of terbutaline aerosol, 259
atopic and exercise-induced, ketotifen in, 308
bronchial, ketotifen and disodium cromoglycate in, clinical trial of (P), 234
bronchial reactivity in, measurement of, and interpretation of tests (E), 561; (*Letter*), 960
bronchoconstriction attributed to suggestion in, airway cooling real cause of? (P), 712
cardioselectivity in (P), 228
chronic, effect of sustained release aminophylline in (P), 233
chronic, severe, corticosteroid aerosols in, trials of, 401
circulating β-adrenoreceptor blocking factor in (P), 712
clinical, allergic bronchopulmonary fungal disease without, 345
comparison of efficacy of intravenous aminophylline, salbutamol and terbutaline in (P), 233
H_2 receptor blockade and bronchial hyperreactivity to histamine in, 268
histamine and methacholine challenge in, effect of aerosol and oral fenoterol, 580
histamine dose-response curves in, and relevance of distinction between PC_{20} and reactivity in characterisation of clinical state, 731
in angler (P), 712
in desert (Kuwait) (P), 712
induced by exercise, duration of salbutamol protection from, comparison with reproterol (P), 713
induced by exercise, mechanism of (P), 713
induced by exercise, modification by calcium antagonist (nifedipine), 231 (P); 726
induced by exercise, plasma catecholamines in (*Letter*), 480
induced by exercise, plasma cyclic nucleotide levels in, 823
induced by hyperventilation, refractory period in (P), 713
induction of, comparison of isocapnic hyperventilation with dry air and exercise for, 596
intravenous salbutamol and aminophylline in, failure to demonstrate synergy between, 741
ipratropium bromide in, site of action and clinical and physiological determinants of response, 530
modulation of histamine-induced bronchoconstriction with inhaled, oral and intravenous clemastine in, 737
Moses Maimonides' Treatise on, bibliographical review and analysis of text, 245
nocturnal, diagnosis and treatment of, implications of rhythm in airway calibre for (E), 481
nocturnal, treatment of, aerosol salbutamol versus oral slow release aminophylline for (P), 715
occupational, after exposure to diazonium salt in photocopy paper worker, 950
occupational, compensable, definition of, and assessment of bronchial hyperreactivity and trigger factors (E), 881
occupational, due to azodicarbonamide, in plastics workers, 906
occupational, in electronics factory making flux-cored solder containing colophony, 828
plasma and saliva theophylline levels and lung function after Nuelin SA (sustained release theophyllin) in (P), 234
plasms levels of slow reacting substance of anaphylaxis in (P), 714
prazosin inhalation in, 378
response to ipratropium and salbutamol in, influence of age, 523
salbutamol respirator solution in, estimation of optimal dosage from comparison of 3 doses with plasma levels, 625
stable, oral corticosteroid therapy in, tracheobronchial clearance and ventilatory function after (P), 226
subjects with previous respiratory failure, hypoxic and hypercapnic response in, 759
symptoms, minimum treatment for control of, relationship to airway responsiveness to histamine and methacholine, 575
syndrome, inciters, inducers, and host characteristics in (E), 641
synergism between ipratropium and theophylline in, 387
with nocturnal wheezing, circadian variation in adrenergic responses in (P), 713
Athletic competition,pneumomediastinum as complication of, 155
Atopy and wheeze in children, influence of parental atopy and family size, 185
as factor in susceptibility of smokers to chronic airway narrowing (P), 716
Auscultation of heart, Laënnec's work on, 84
of heart since Laënnec, 95
of lung, Laënnec's work on, 84
of lung, past lessons and future possibilities, 99
Australasia, cilial abnormalities in (P), 717
Automated system for measurement of airways resistance, lung volumes and flow-volume loops, 944
AVIGAD I. *See* RABAU MY, AVIGAD I, *et al*
AYRES JG. *See* REES PJ, AYRES JG, *et al*
AZAMBUJA PC, FRAGOMENI LS: Traumatic chylothorax associated with subarachnoid-pleural fistula, 699
Azodicarbonamide, occupational asthma in plastics worker due to, 906
